

TYLER EDGINGTON

CONSTRUCTION PROJECT SUPERINTENDENT

As a Construction Project Superintendent, Tyler Edgington is responsible for the daily tasks required to maintain a successful construction project. He coordinates the scheduling of subcontractors and vendors, ensures subcontractor work is done per plans and specifications, keeps projects on time and on budget, and performs site safety audits.

Tyler joined the Hubbell Realty team in December 2014 as an Assistant Project Superintendent. During his time at Hubbell, he has assisted with the construction of several projects including Edencrest at Green Meadows, SPS Pipe Fabricators and The Ridge at Johnston Commons. He was promoted to his current role in September 2016.

Tyler has worked in the construction industry since 2007, starting as a wood building framer while he completed his construction management degree at the University of Northern Iowa. Following graduation, he worked as a field engineer on a variety of construction projects, including two grocery store expansion and remodels, a health club remodel and concrete tilt-up project
